RE: Metaphysical Study for the Year 2007–2008

The metaphysical topic for the year is: “Love impels good works” (*Mis.* 358:1). Christian healing and doing good daily is the backdrop for this year’s theme. The Trustees have asked us to focus on “The Way” from *Miscellaneous Writings*, and this theme is taken from that article. The full article is included in the September readings. Below is a list of study citations that the Trustees and administrators will be using in their metaphysical support for the school. We invite you to join in this monthly study.
